

# Community Support HIROSHIMA

**Build Back Better**  
in Recovery , Reconstruction , Rehabilitation

# **Our starting point**

## **HIROSHIMA Sediment Disasters on 20 August, 2014**

**Around 40,000 volunteers from all over Japan had come to HIROSHIMA to join the recovery and the reconstruction activities.**

**The volunteers supported community people not only in evacuation shelters but also at the disaster-stricken area for recovery.**

**The present members of Community Support HIROSHIMA also had joined the recovery activities as volunteer and then we had established a NGO “Community Support HIROSHIMA”, a disaster volunteer activities NGO.**

The background of the image is an abstract composition of overlapping geometric shapes, primarily triangles and quadrilaterals, in various shades of yellow and white. The shapes are arranged in a way that creates a sense of depth and movement, with some areas appearing brighter than others due to the layering. The overall effect is clean, modern, and optimistic.
